This scene is possibly a simile for a shrink making one of his patients (or LabRats as the shrink thinks of *CAP*) his patients' psyche and making him / her attack the Whitehat / Whistleblower. The "IabRat" would then attack the Whistleblower / Whitehat as soon as he is connected to the victims Virtual World (m98, m99)

With tons of bigdata you could easily say if someone is lying. Maybe there is already a system that does that function this to help parents to teach their children well. This would need some Algorithms and some Technology cards and of course some programming language like Prolog. After a while the parents would trust into this stimuli and if the oldes kid was lying, the **system is lying** but the stimulus that was trained in the parents head says **this is a lie, the system does not lie**, the parents would not believe that the system is broken or that the system is intentionally lying. Maybe a common problem among WhiteHat Hackers. But it became easier since good people like Manning or Snowden provided us with proof. What if **Schizophrenic People** have the same Problem, or at least some of them. **Workaround:** switch from **inductive reasoning** to **Deductive reasoning**

Rund jedes 80ste Kind wird in den Suizid getrieben, der CIA versucht die anderen 79 Kinder glauben zu machen das 80ste sei ZB ein Vergehwaltungsterrorist, jude, Nazi.. und verlangt die Zustimmung, (z.B. über eine Maus-Geste am Windows Computer) das "Gspöndil" zu töten, ist der 80ste Tod werden die anderen 79 mit ihrer Zustimmung erpresst. Die Eltern hätten dies schon vor Jahrzehnten getan und hoffen darauf ihre Kinder auch in dieses Zwangsmaßnahmensystem einzureihen. Somit wäre Rituelle Kindstötung der Hauptschlüssel des Amerikanischen Zwangsmaßnahmen Systems. Und da Machtmittel dazu tendieren missbraucht zu werden sollten wir diese Machtmittel zerstören. Dann die alten Generationen könnten einem dann berechtigt oder "hererichtet" noch das letzte Hand vom Leibe reissen. Ein Weg das zu verhindern wäre z.B. etwas wie das gescheiterte Projekt <https://github.com/dzainef/suizid-app-ch>, dann müssen wir uns nicht mit den alten Pissecken anlegen, deren "Konzept" mit "Ingres Resonatoren" nicht angehen, sondern das Problem nur mitmittigen" bzw. umgehen.

An urban legend explains, that if you put monkeys into a room with bananas on top of a ladder and punish the whole group (**Behavioral Sciences, non-consensual**) if one of them wants to get a banana after 1000 repetitions the monkeys then would attack that monkey that tries to get a banana. If you project this behavior to **Fouraults Dispositiv** (see German Article: [https://en.wikipedia.org/w/index.php?title=Sexualit%C3%A4t_zentrale_Position_\(Foucault\)&oldid=39445607](https://en.wikipedia.org/w/index.php?title=Sexualit%C3%A4t_zentrale_Position_(Foucault)&oldid=39445607)) and ein (BfG-Daten b.I., t12 cards) they would **attack the kid** that touched His wiener. The Turtle comic (upper right corner) would imply, that this algorithm even crosses the line of generations. Crossing the line would cause the younger generation even to commit suicide since this sociopsychology-design pattern then transmits pedophile parents that want rape the kids. **If only one monkey has a masochistic worldview this experiment will not work.** **ICD-10 F65.5 declares masochism to a disease (Swiss law would allow StGB 59), that's how the try fix that glitch in their mindcontrol System**

WARNING, THIS CARD NEEDS TO BE VERIFIED BY MEDICAL PEOPLE, NOT VERIFIED SO FAR. IMHO they used(s) such sort of implant (**stimulated frequencies or codes**) to make the old people to old pedophile people. If activated the person would focus on more things in context to sexuality. Played with m71m72 we would have an "unsolvable problem"... The 1950s Generation in not the Master Mind, they are stupid BOIs that being used as Weapons, and those with more money would even take a younger kid as weapon, but in fact the 1960s pedos would not even have access to the 1980s victims, they would be very likely that eg. 1960s parents Cyber-Rape 1980s girls and just the 1980s boys as scapegoats. The Keyword then activates all accusations against a boy that is whitehat or whitehat hacker, while the 1960 say "I wash my hands in innocence", the keyword obfuscated as scapegoats, Whitehat Hackers that would defeat the 1940s "Master Mind". Nevertheless Pedophili is a forced neurosis that needs to be theraped in a mental institution, so lets put the guilty 1960 people into Mental Institutions instead of the 1980 scapegoats!

spontaneous discharge

Spontaneous discharge seems to be a voice keyword to pop accuses from equal aged girls against the boys. They are done in jobs (project paperclip, see a17 card). So the old generation keeps the problems active by not sending them to the accused boys, because the boys would try to change their behavior since they would be attracted by equal aged girls. And maybe many of the accusations are wrong, but by not sending them the accused can not tell his part of the story (~lauditur et altera pars). So both the young boys and the young girls are victims of the older generation, as already said it would be very likely that eg. 1960s parents Cyber-Rape 1980s girls and just the 1980s boys as scapegoats. The Keyword then activates all accusations against a boy that is whitehat or whitehat hacker, while the 1960 say "I wash my hands in innocence", the keyword obfuscated as scapegoats, Whitehat Hackers that would defeat the 1940s "Master Mind". Karma SystemDynamics

Karma seems to be an malware that is autopotic, that is transmitted eg. from Neuralink to Neuralink. Or after such a "fishing crusade" @loieroru talked about in "To protect and infect, part 2". If you report such an attack to the people that should have an eye on that, the malware tells them **that the person that reported it is the offender**, even if he is 1980s generation, it would be likely that these sort of attacks are generated not from a single person but from a bigger network. In Mental institutions often the system tells that one will be infected with bad karma by other patients => **avoidance behavior to help**. I think karma would be great, that if you really try to help people that this would give you some benefits.

After Family Bloom attracted me with a computer course (m75), after her daughter (m38, m83), took my heart, after they throw me out (m45), after they put me in a mental institution (m19), after I worked for 18 Years most of the time 16h not just 8h like normal people do, after they used me for many things as scapegoat (scg), after they used me as lab rat (t19, t11, t15)... Thank you that you showed me who i really am, and if Sonygirlfriend broke her promise, i think it would be completely ok to own the complete Kanton Aargau with my blood, and please remember to throw my dead body into the garden of Blooms, Arauu and please call the press, or the sunshine press to make a big story to force the people in Switzerland not to do such stupid things...
