

Swiss Military Mainframe

Inventor: ???

Year: ~XXXX

If t40 to t45 Cards can be proven then it would be likely that there is also a swiss army mainframe. Maybe one could find that with an estimation of its power consumption. It is not clear to me or us if NSA / CIA (Card t35) should just obfuscate maybe the last bastion of Satan, or if it is to train the people for the Military. Train in military context would possibly mean to make them kill for example an equal aged seal that file and blackmail the trainee the rest of his live with his deed (see m37 Card). Some did not kill, some just scapegoat for others. Maybe we can get them back to heaven. But if we would "play" "red team" to this systems we maybe would produce lot of collateral damage. We hope there is a way through Denialg curt or amnesty to prevent them being evil

Antenna (Wasserflue)

Inventor: **xxxxx** **Year:** ~?????

As seen in Battle Filed Bad Company 2, the m-com-station is shown as small box, but it would be more likely that these are big antennas like the one on the "Wasserflue" (in Küttigen near Aarau).
Maybe one should find out the power the antenna uses and how strong the "drum-antennas" are and if it would be enough power to activate implants (maybe just a golden wire with lambdaN (other Antenna card) to drive people insane or even drive tobias moser to commit suicide with his military weapon (as far as we heard))

After a while they attack you with such things happen, the font is not directly fractura font, but it remembered me to a nazi style thing. I found this car by coincidence. Twittered about it then possibly \$herfather used sent the tweet to those people that then found me "coincidental" and hunted me down with Medulla Signalm implant. >> [cAPI](#) Insert: [\\$herfather now transmits that he wanted to kill \\$onlyGirfriend which is completely nonsense.](#) I will never kill caludine. i would just kill myself if she broke the promises we gave us two <-< the person just inserted the things in arrows, based on jus Primae Noctis Rape is possibly the person that programmed this group of alleged Neo-Nazis.

Inventor: B. F. Skinner **Year: ~1960**

Over electrodes on the floor he could give the mouse electroshocks = punishment / create aversion Ⓛ By pressing the button the mouse was rewarded with a biscuit = reward / incentives / reward Ⓜ a2 card Skinner searched for sequences of **incentives** and **punishment**, to completely remotely-control test-“object” caused long-term damage, if you are being subject to such experiments talk about the details with equal aged people you trust. If you tell eg the Police they just diagnose you eg Schizophrenic and would put you in a mental institution where historically a lot of such illegal human experiments were made. eg. Burghölzi. I guess today (2019) the abuse refugees: #VergindKinder, #SchwabenKinder, not loved Childrend (often the oldest male), Soldiers... generally people nobody cares about, we as a society should act and leak what we know about.

- acid in my body lotion
-> seal the closest
- infrared laser
-> maybe in acer display, add polarization filter
- active denial system(s) that roast first layer of my skin
- maybe in combination with chemicals on my skin
- or Chemicals that was put out into my body lotion, or
- or even both (even 3 factors),
-> no solution yet
