After a while, \$Shrink shoots to many Cyber Weapons / electronical / psychological weapons / Warfare Socio-Psychology-Design-Patterns at me and locked them. As soon as i would like to protocol them he or his automated targeting system shoots more at me. I guess like real 0days for eg. Software or Operating Systems they don't have unlimited of this socio-psychology Malware. So he must prevent that i disassemble them. Otherwise we could patch them. Any idea?

Possibly the black world (also called Economy) found out as early as 1999, that OpenSource movement or Creative Commons has the better ideas than people working for money. So it would be likely, that they tried to own young people that live in the Open Source Community. They let the young people do what they like, but if the young Nerd or She-Nerd has a good ideas they steal the idea, claiming that the idea is their intellectual property. Even erasing the Nerd in Mental Institutions with drugs that he forgets about the fact that he initially invented it. **As Open Source Community, we should have an eye on that.** Derivation of this Thesis can be found on <http://marcandolli.html.buzzernet/2011/01/30/schamhaehoden-epiliener-beimann/> (sorry German) Maybe the "Linux; it's a Marketing Problem" might be a overloaded Symbol (m69 card, several meanings) too.

Often the those in power have some sort of spell to **virtually dress their victims as offenders.**  
It happened very often to me, that i've been hurt or almost killed, but in the end the curt ruled against me. And there are also many female rape victims that have observed similar things.  
So in our opinion swiss justice system is not just, or never was. Or at least those Judges i had. Mental Institutions in switzerland are also not the best place for victims.  
So if anybody has good ideas to fix this problem please add the ideas to this repo.

The Equal Aged that "did the Therapy" are innocent, they were just stupid NPC's controlled maybe over something like **ARPA NET** (maybe owned by **[global] Student Associations**), t40-t45 Cards, and maybe additional with **Archetype-Complex-Plane / QAM64 Modulation** to help identify archetypes but also to annoy them with the wrong archetypes..

**Inventor:** Satan / Capitalism / Advertising Industry details, you will find in the book "IBM and the Holocaust" from Edwin Black...  
...i have just one add-on. Mental Institutions are not that bad than Auschwitz, but you don't want to be there, also as a christian you don't want to be especially not if you are some sort of a similar archetype like Hans or Sophie Scholl. They cut off your head virtually: they give that much intelligence reducing anti-psychotics that you become as stupid as a swiss toast bread sandwich.  
Further in Kanton Aargau they have the Software "ORBIS" AG, if your don't get your injection with the intelligence reducing antipsychotics then this software automatically the police that will hunt you, somehow the same concept as described in the book.

Cards used t1, t2, t10, t12 (of also showing content in social media, mail, like the study where facebook showed that they can influence mood customers with only showing good or bad content)  
It is used more complex too, if the last good scene really stabilizes your mental state they make see that with eeg, eg t1, t3, t4, activating things like dt1, dt3 in conjunction with t15 or t19 and playing the loop for the bad things to delete the one last scene that stabilizes you. So you would become psychotic again and they could make business with m49,...  
They seem to combine EEG, Fear detection (m57) to automatically target whistleblowers, if they can detect an earlier scene they trigger (t14) even more similar-Bad Scenes from earlier
