

MRI / MRT

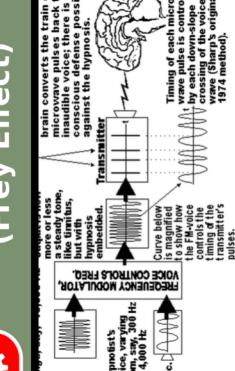

<https://0x8.ch/HackersCardgame21>

Inventor: ????

To scan a human body, hopefully **siemens** does not have some sort of **stuxnet virus** here that filters implants and wires that were illegally implemented. Algorithm would be some interpolating algorithm that removes the implant and shows normal brain.

But unsure about that so far...

Microwave Hearing (Frey Effect)

Timing of each microwave pulse is controlled by the frequency modulator. The frequency modulator controls the timing of the wave (sharp's original method).

HOW SILENT (CONVERTED TO VOICE-FREQUENCY MODULATOR TO GENERATE THE "VOICE", THEN PULSED MICROWAVE VOICE-TO-SKULL FOR DISTANCE AND COVER

<http://www.raven.net/hypnoz.gif>

<https://0x8.ch/HackersCardgame21>

Inventor: Allan H. Frey (Cornell Uni) ~1961

"He Hears non-existent voices, *hahaha*", invisible communication channels, **pulsed** microwaves received directly by the cochlea. The exact frequency found by scanning through the possible frequencies, if the victim puts his hand to his ear ("*tinnitus*"); **Automatic Behavior Recognition**. Was 30 Years not patented until 1889 under US4870727. Technically it would have been possible to do this maybe already with electron tubes (~ 1900). Psychological Perspective: people that abuse such technology would keep that secret and previously labeled as a "Schizophrenic" the victim is completely defenseless and it is likely they induced **suicide** or **amok**. In combination with e.g. a loop recorder, see also c02 Card, the perpetrators often caused permanent damage in the psyche of their victims; **PTSD** (#Verdingkinder / #Schwabenkinder / #Slaves)

Fill-Gun

Inventor: **xxxxx**

Year: ~????

Fill-guns are sold as a Ring on a chain, for example in Tolkien's "Lord of the Rings". In fact would be a black box with socket and reset button to delete the keys on fill-gun. (Hopefully one has implemented an enhanced delete function) If you put fill-gun into a Military-Radio (SE235, or T25 / 1267) with frequency hopping the Cryptological Keys are loaded and radio would join to Military Network. Frequency hopping would allow to transmit to golden wires (e4) in the body. **Main question would be, if the fill-gun loads a radio, where are the fill-gun loaded.** Afik SherFather told me once that the Zurich Insurance has two specially secured terminals. Male Lobsters (bio1) tend to show off with objects of power to compensate their low self-esteem, in Bière an officer also showed off his Fill-Gun **proud.** I / We guess that the Fill-Guns gives the owner access to all owned soldiers.

EventTrigger

Inventor: **xxxxx**

Action 1

Action 2

...

Action n

Inventor: **????????**

Specific Events can trigger Actions, GPS Data, Data from acceleration sensors in handles (for example specific roller coaster) Events could be Sounds, turning on Light-Switch (maybe evaluated by smartmeter), and the list of what device uses how many watts), images, Automatic Behavior Recognition, websites (URLs), Buttons or Mouse gestures on a computer. Handy or even if you draw a circle with your hand in the air. One can recognize events with AI (Pattern Recognition, Deep Learning,...). For Example if a Gang/Neighbour would have fired illegally with a weapon, this event would have been recorded and caused an event in a Gunfire locator system [1]. Concerning SherFather (statement not verified yet) are the 1960s those who programmed the triggers against marl Jr landolt, after they programmed those triggers they run in auto-pilot mode and they can't delete it (auto-pilot = allegation)

Loop Recorder "Dormiphone"

<https://0x8.ch/HackersCardgame21>

Inventor: Petron Corporation (1933) ~1952

An **analogue continuous tape**, where one can record suggestions such as e.g. **2 + 2 = 5**, which is **automatically activated at certain times**. The tape will automatically turn off after 5 minutes. With digital Equipment (computer / mobile phone / IoT) one can realize more complex systems. And there are possibly also several different channels. (see cards t1, t7, t3, t12)

During the night: overwrite things (C05 card) or learning things while sleeping, eg. foreign languages, unfortunately you can also upload a complete (**wrong**) world view to the brain, or antagonizing world views or dogmas to split society into two groups that fight **each other** (see card m50, or e.g. m45 vs m46)

t10

With infinite loop suggestions

Activation-Times

RUAG Ranger Drone

<https://0x8.ch/HackersCardgame21>

Inventor: RUAG Ranger

RUAG (Raum- und Umlauffahrt Systeme AG, Markt 42520) ist eine Tochter des Schweizer Rüstungskonzerns RUAG Aviation Systems Communication Systems (PCS). Sie wurde von den beiden Firmen 2001 im 1800-jährigen entstehen.

Kostenwirksame Technologien

- 1. Flugzeit
- 2. Energie
- 3. Transportkosten
- 4. Wiederverwendung
- 5. Einsetzbarkeit

Funktion: **Steuerung** (Optimierung technischer)

US-Armee: Drones wird eingesetzt über das Elementen von RUAG zusammen mit Schwerpunkt Rüstung und Luftfahrtunternehmen RUAG Aviation Systems Communication Systems (PCS) der Grand Combat System (GCS) welche die RPAS verhindern Beladen zur Verbindung, eine private und öffentliche Sicherheit.

Year: ~xxxx

Switzerland has Drones, possibly attached also to INTAF (t43) Cards, possibly also using Military Fiber Backbone (n3), and it is also likely that they have SDH's mounted for the less nice things like t19 Card or other "funny" things. Maybe they also can Control NPC's with such drones like Michael B (Blitzk) called him Grossmöröd. I think it would be easy to find out if swiss army had a reason to kill her with the hands of her own grandchild... This is just speculation, but if t19 Card can be proven on such drones it would be likely that they use them also for Behavioral "Sciences". Good thing seems to be that they can not fly or only reduced when it rains. So doing a bicycle tour by night and rain sounds maybe like a bad idea, but maybe isn't at all and one would find out about e.g. t41

t44

Cyber choking chain

Inventor: ?????

<https://0x8.ch/HackersCardgame21>

With a golden wire / metallic substance that was injected into my throat, they contract my muscles (possibly radio waves) that makes me paranoid. At the same time they loop the sentences "You have Cancer", "It's because you smoke", "It's just to keep you save", "It's just a game". That confuses / depresses me. BDSM to materializes later, possibly shields the radio waves, or victimize me, or some sort of hint in case i would die. Coping Strategy would be if you think that it is just some sexual game, but in fact it is illegal torture to silence whistleblowers / Whitehat Hackers. Since i'm interested in the truth i am maybe the right way to find those old people that destroyed so many lifes. Unsure if this could be induced also by something like t1 or t6 card. I guess they use EEG (eg t1 Card) return channel to find out, if it succeeds destabilizing my psyche. They dont do peeks or spikes, otherwise would be clear that it is electronically induced, if they do a crescendo over several hours it really sucks. Additional there is a bloodoen saliva mod, if you have permanently blood in your saliva visit a doctor!

t1.9

Inventor: ?????

<https://0x8.ch/HackersCardgame21>

With the help of the AI, we can see that the needles are made of hollow micro-needles fabricated on a flexible substrate. The needles are arranged in a grid pattern, with each needle having a small circular opening at its tip. The needles are very thin and appear to be made of a metallic or conductive material. The substrate is a light-colored, flexible material, likely polyimide or similar. The needles are densely packed, creating a textured surface. The overall appearance is that of a medical or scientific probe or sensor array.

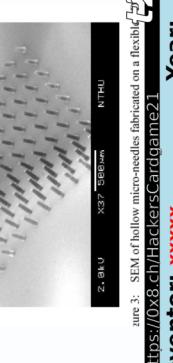

Needle Array

Inventor: ?????

<https://0x8.ch/HackersCardgame21>

Inventor: ?????

<https://0x8.ch/HackersCardgame21>

A scanning electron micrograph (SEM) showing a dense array of needles. The needles are arranged in a regular grid pattern, extending from a central substrate. Each needle has a distinct, rounded tip. The background shows the textured surface of the substrate and the surrounding area. The image is in grayscale, with varying shades of gray indicating depth and texture. A scale bar in the bottom right corner indicates 500 nm.
